

What is claimed is:

1. A dishwasher comprising:

5 a main body being generally of a box shape with an open front;

a washer tub being extracted from and retracted into the main body through the open front by means of slide rail assemblies, the washer tub having an open top; and

10 a covering member for blocking a gap to be opened between the washer tub and the main body when the washer tub is fully extracted from the main body,

wherein, when the washer tub is fully extracted from the main body, a rear end of an inner wall of the washer tub is located in front of a front end of the main body to open  
15 the gap and the opened gap is covered by the covering member.

2. The dishwasher of claim 1, further comprising:

20 components disposed behind the washer tub in the main body, for feeding and draining water to and from the washer tub.

3. The dishwasher of claim 1, wherein the covering member includes plate members, each plate member extending backward from an upper part of each side surface of the washer tub.

25

4. The dishwasher of claim 2, wherein the covering member

includes plate members, each plate member extending backward from an upper part of each side surface of the washer tub.

5. The dishwasher of claim 1, wherein the covering member  
5 includes concealing members, each concealing member extending downward and backward from a lower part of each side surface of the washer tub.

6. The dishwasher of claim 2, wherein the covering member  
10 includes concealing members, each concealing member extending downward and backward from a lower part of each side surface of the washer tub.

7. The dishwasher of claim 3, wherein the covering member  
15 includes concealing members, each concealing member extending downward and backward from a lower part of each side surface of the washer tub.

8. The dishwasher of claim 4, wherein the covering member  
20 includes concealing members, each concealing member extending downward and backward from a lower part of each side surface of the washer tub.

9. The dishwasher of claim 1, wherein the covering member  
25 includes one or more upper plate members, each upper plate member extending backward from a top rear portion of the

washer tub.

10. The dishwasher of claim 2, wherein the covering member includes one or more upper plate members, each upper plate member extending backward from a top rear portion of the washer tub.

11. The dishwasher of claim 2, wherein the components include at least one electric part.
